

RAKESH KUMAR @ New Delhi

NDIA's smartphone sales declined 9% year-on-year in the first nine weeks of 2026, according to Counterpoint Research. The decline in sales is mainly due to supply-side pressures, especially rising memory component costs, along with the usual slow demand at the beginning of the year.

The report noted that while consumers were initially less aware of price increases, continued hikes by multiple Android brands gradually affected store footfall and overall sales.

**Price hikes and limited boost from sales**

As per the report, until Week 9, more than eight brands had already increased prices of key SKUs, with an average hike of ₹1,500, which is expected to rise further. New product launches are also coming at higher price points. However, Republic Day sales provided only a temporary boost to weekly performance in January 2026, with more impact seen in online sales.

While volumes remained under pressure, value growth stayed steady due to continued premiumisation, a trend seen throughout 2025 and now extending into early 2026. At 19% YoY, vivo recorded the highest sales growth in the first nine weeks of 2026, driven by new launches and strong performance of its Y and T series. Apple grew 12% YoY, supported by discounts and continued demand for its iPhone 17 series.

"India's smartphone market started the year on a low note, as persistent price increases continued to weigh on consumer demand. Limited promotional intensity and fewer new launches further impacted purchase momentum. All this resulted in weaker retail conversions across channels, reflecting guarded consumer sentiment," said Prachir Singh, senior research analyst at Counterpoint Research.

Research Director Tarun Pathak is of the view that ongoing global uncertainties, including geopolitical tensions and rising essential commodity prices, are expected to continue to weigh on discretionary spending, with India's smartphone market projected to decline by around 10% in 2026. According to him, brands are likely to maintain a cautious approach, focusing on premium-led growth supported by new launches and targeted financing.

"While premium segments are expected to remain relatively resilient, affordability constraints and limited financing availability will continue to impact demand in the mass segment, leading to a gradual and uneven recovery," Pathak said.

**Outlook remains cautious**

Research Director Tarun Pathak is of the view that ongoing global uncertainties, including geopolitical tensions and rising essential commodity prices, are expected to continue to weigh on discretionary spending, with India's smartphone market projected to decline by around 10% in 2026. # Hot smartphones to launch in April

## HERE'S WHAT TO EXPECT

RAKESH KUMAR @ New Delhi

**W**ITH April beginning, major smartphone brands are gearing up to launch new devices across segments. From Vivo and Oppo to Realme and OnePlus, companies are preparing to introduce smartphones with upgraded features, better cameras and bigger batteries. Here's a simple look at the key launches and what they may offer.

**Oppo Find X9 Ultra**

Oppo is expected to launch its flagship Find X9 Ultra in April 2026, although the exact date is not yet confirmed. This will be the brand's first "Ultra" model to launch globally after being limited to China earlier. The phone is likely to feature a large 6.82-inch AMOLED display with a 144Hz refresh rate. It may be powered by the Snapdragon 8 Elite Gen 5 chipset, along with up to 16GB RAM and 512GB storage. The camera setup could be a major highlight, with multiple high-resolution sensors including a 200MP primary camera.

The device is also expected to pack a 7,050mAh battery with fast wired and wireless charging.

200MP primary camera.

**Vivo V70 FE**

Realme 16 launched in India on April 2, 2026, starting at ₹31,999 for the 8GB + 128GB variant. The phone features a 50MP rear camera with a built-in selfie mirror and a 50MP front camera. The device has a slim 8.1mm design with IP66/IP68/IP69 ratings. Compared to its predecessor, the Realme 16 5G runs on the Dimensity 6400 Turbo chipset with UFS 2.2 storage, a 6.57-inch 120Hz AMOLED display, and 60W charging. It comes with a 50MP main camera and a 2MP secondary sensor. The battery capacity remains 7,000mAh, ensuring strong battery life.

Realme 16 launched in India on April 2, 2026, starting at ₹31,999 for the 8GB + 128GB variant. The phone features a 50MP rear camera with a built-in selfie mirror and a 50MP front camera. The device has a slim 8.1mm design with IP66/IP68/IP69 ratings. Compared to its predecessor, the Realme 16 5G runs on the Dimensity 6400 Turbo chipset with UFS 2.2 storage, a 6.57-inch 120Hz AMOLED display, and 60W charging. It comes with a 50MP main camera and a 2MP secondary sensor, without OIS or an ultrawide lens. The battery capacity remains 7,000mAh, ensuring strong battery life, although charging may be slightly slower than before.

**OnePlus Nord 6**

The OnePlus Nord 6 is set to launch on April 7. It is expected to come with a 6.78-inch AMOLED display and a high 165Hz refresh rate, making it suitable for gaming. The phone will likely run on the Snapdragon 8s Gen 4 processor and is expected to deliver smooth gaming performance. It may feature a 50MP main camera and a 16MP front camera, with support for 4K video recording.

**Vivo T5 Pro**

The Vivo T5 Pro is likely to launch in mid-April, although the date is not official yet. It is expected to target the mid-range segment with a price between ₹30,000 and ₹35,000. The phone may feature a large 6.8-inch AMOLED display with a 144Hz refresh rate and could be powered by the Snapdragon 7s Gen 4 chipset. It is also expected to come with a massive 9,020mAh battery and fast charging support.

# India's smartphone market enters the two-day battery era

PADMINI DHURVARAJ @ Bengaluru

NDIA's smartphone market is witnessing a clear shift towards longer battery life, with several new launches in 2026 signalling what industry observers describe as the beginning of the era of 'two-day battery'.

Over the past few weeks, smartphone makers across price segments have introduced handsets with significantly larger battery capacities, moving beyond the 5,000mAh standard that dominated the market for years. Devices launched in March are now carrying batteries ranging from 6,300mAh to as high as 10,000mAh, reflecting changing consumer priorities around endurance, gaming and always-on connectivity.

Among the latest examples in India is Xiaomi's Redmi 15A 5G, launched at ₹12,999, which comes with a 6,300mAh battery. According to the company's published specifications, the device is capable of "up to two days of usage" on a single charge.

TECNO's Spark 50 5G, which was announced on March 27, has gone a step further with a 6,500mAh battery and is being positioned around extended daily usage. The trend is not limited to entry-level devices. Mid-range and premium smartphones launched globally in March have crossed the 7,000mAh mark, with some models pushing towards 9,000mAh and even 10,000mAh batteries. The Realme Narzo Power, for instance, was launched with a 10,001mAh battery, while several other brands, including POCO and iQOO, have introduced devices in the 7,000mAh to 9,000mAh range.

The move reflects the way smartphone usage in India has evolved. Consumers are increasingly using their phones for video streaming, gaming, mobile payments, navigation, remote work and AI-powered applications, all of which place greater demands on battery life.

**CIDCO WE MAKE CITIES**

**REQUEST FOR PROPOSAL (RFP)**

**Development of International Corporate Park (ICP) at Kharghar, Navi Mumbai**

The City and Industrial Development Corporation of Maharashtra Limited (the "Authority" or "CIDCO") invites **Request for Proposal (RFP)** from reputed Developers/Companies to undertake the **Development of International Corporate Park (ICP)**, a first of its kind project at Kharghar, Navi Mumbai (the "Project") based on State Government approved policy of 'Theme-Based and Iconic City Development' to facilitate the development of bulk land parcels in a holistic manner through Construction & Development Operator (CDO) Agreement.

**RFP Schedule**

- 1) Publishing Date on **06.04.2026 at 11.00 Hrs.**
- 2) Document Download/Sale Start Date on **06.04.2026 at 11.00 Hrs.**
- 3) Document Sale End Date on **16.05.2026 at 17.00 Hrs.**
- 4) RFP Submission Start Date on **06.04.2026 at 17.00 Hrs.**
- 5) RFP Submission End Date on **16.05.2026 at 17.00 Hrs.**
- 6) Submission of Original Documents on **21.05.2026 at 16.00 Hrs.**
- 7) Pre-Bid Meeting on **20.04.2026 on 15.00 Hrs.**
- 8) RFP Opening Date on **17.05.2026 at 15.00 Hrs.**
- 9) Opening of Financial Bid will be intimated

**Important Instructions:**

- 1) The detailed RFP document can be downloaded from the Government of Maharashtra e-Tendering Portal: <https://mahatenders.gov.in/niccep/app>
- 2) Applicants shall submit their RFPs online through the above portal only.
- 3) Queries, if any, may be sent via email to: [mm.commercial@cidcoindia.com](mailto:mm.commercial@cidcoindia.com) from **06.04.2026 to 13.04.2026.**
- 4) Replies to queries shall be published online as Corrigendum latest by **27.04.2026.**
- 5) CIDCO reserves the right to accept or reject any or all RFPs without assigning any reason thereof
