2. Background of the Transferor Company and Transferee Company

2.1 Description of the Transferor Company:

- i. The Transferor Company (having CIN: L65999KA2004PLC035329 and PAN: AAACU7330C) was originally incorporated as a private limited company on December 28, 2004) under the provisions of the erstwhile Companies Act, 1956 with the name 'Ujjivan Financial Services Private Limited'. Pursuant to a certificate issued by the Reserve Bank of India ("RBI") on October 31, 2005, the Transferor Company was permitted to commence operations as a Non-Banking Financial Company ("NBFC") under section 45 IA of the Reserve Bank of India Act, 1934. On September 5, 2013, the Transferor Company was registered as NBFC-Microfinance Institution ("NBFC-MFI") by the RBI.
- ii. The Transferor Company was subsequently converted into a public limited company pursuant to a special resolution passed by its shareholders at an extraordinary general meeting held on November 3, 2015, and the name of the Transferor Company was changed to 'Ujjivan Financial Services Limited'. A fresh certificate of incorporation consequent upon conversion to a public limited company was issued by the Registrar of Companies on November 26, 2015. Consequent to such change in name, a fresh certificate of NBFC-MFI registration was also issued by the RBI on March 04, 2016.
- iii. On October 07, 2015, the Transferor Company was granted an in-principle approval by the RBI to set up a small finance bank ("SFB") under the Guidelines for Licensing of Small Finance Banks in the Private Sector dated November 27, 2014 issued by the RBI read with the Guidelines for 'on-tap' Licensing of Small Finance Banks in Private Sector dated December 05, 2019 issued by the RBI ("SFB Guidelines").
- iv. As per the SFB Guidelines, a pre-requisite / eligibility criterion for setting up a SFB was that the promoter of small finance bank should be owned and controlled by residents. At the time of receipt of RBI's in-principle approval, the majority of the shareholders of the Transferor Company were non-residents/foreign shareholders with no identifiable 'promoter' or 'promoter group'. Accordingly, to comply with the aforesaid pre-requisite, the Transferor Company raised domestic capital by way of an Initial Public Offer ("IPO") in May, 2016. The IPO received a positive response, was oversubscribed and the foreign shareholding was brought down to below 49% (forty-nine percent) and thereby the Transferor Company met the eligibility criterion of being a domestic promoter of the small finance bank.
- v. Pursuant to IPO, the equity shares of Transferor Company were listed on BSE Limited ("BSE") and National Stock Exchange of India Limited ("NSE") on May 10, 2016.
- vi. In line with aforesaid in-principle approval of the RBI, the Transferee Company was incorporated on July 04, 2016 as a wholly owned subsidiary of the Transferor Company to carry on the business of small finance bank in India. Thereafter, on November 11, 2016, the Transferor Company was granted a final approval by the RBI and a corresponding license bearing license no. MUM: 123 dated November 11, 2016 was issued by the RBI to the Transferee Company to carry on business of small finance bank in India.

- vii. As per the condition of the aforesaid RBI license dated November 11, 2016, the promoting entity of SFB was required to be registered as a NBFC-CIC after transfer of its business to the SFB. To meet the said RBI condition, the Transferor Company i.e. the promoter entity of Transferee Company (which was set up as SFB) transferred its business undertaking as a going concern by way of a slump sale to the Transferee Company on February 01, 2017 and post transfer of the said business undertaking by the Transferor Company to the Transferee Company, the Transferor Company ceased to carry on its NBFC-MFI business and later was converted from a NBFC-MFI to NBFC- Non-Deposit taking Systemically Important Core Investment Company (“NBFC-ND-SI-CIC”) when a fresh certification of registration dated October 10, 2017 was issued by the RBI to the Transferor Company in this regard.
- viii. The registered office of the Transferor Company is presently situated at Grape Garden, No. 27, 3rd "A" Cross, 18th Main 6th Block, Koramangala Bengaluru 560095, Karnataka India.

4. Rationale and benefits of the Scheme

- 4.1 As per the SFB Guidelines, the promoter of SFB is required to reduce its equity shareholding stake in the SFB to 40% within a period of 5 years from the date of commencement of operations of SFB. Thereafter, the promoter's equity stake in such SFB is required to be brought down to 30% and then to 26%, within a period of 10 years and 12 years, respectively, from the date of commencement of operations of SFB. Subsequently, an Internal Working Group (IWG) was constituted by the RBI on June 12, 2020, to review the extant guidelines on ownership and corporate structure for Indian private sector banks. The IWG submitted a report dated November 20, 2020, through which a few recommendations were made to the RBI which *inter alia* included dilution of promoter shareholding. The RBI vide its press release dated November 26, 2021, has *inter alia* accepted the dilution aspects of promoter shareholding in the private sector banks and clarified that the submission of a dilution schedule shall be mandatory.
- 4.2 As per the RBI Clarifications (*as defined in the Scheme*), a promoter can exit or cease to be a promoter of SFB after completing lock-in of 5 (five) years depending upon the RBI's regulatory and supervisory comfort and SEBI regulations. The RBI vide its letter dated July 09, 2021, issued to the 'Association of Small Finance Banks of India', has allowed filing of an application with the RBI for amalgamation of a holding company (being promoter company) into and with the SFB (being subsidiary of promoter company).
- 4.3 The Transferor Company is the promoter of the Transferee Company, and the Transferor Company holds 73.66% (seventy-three point six six percent) of the total paid-up equity share capital of the Transferee Company.
- 4.4 Accordingly, the proposed amalgamation of the Transferor Company (being the holding and promoter of the Transferee Company) into and with the Transferee Company, would *inter alia* enable meeting the dilution requirements referred in Clause 4.1 above, and is in line with the aforesaid enabling RBI guidance. Consequent to the proposed amalgamation as contemplated under this Scheme, and dissolution of the Transferor Company, the Transferor Company's shareholding in the Transferee Company would be reduced to NIL thereby resulting in compliance with the above-referred dilution requirements.
- 4.5 The proposed amalgamation would be in the best interest of the Transferor Company and the Transferee Company and their respective shareholders, employees, creditors and other stakeholders as the proposed amalgamation will yield advantages *inter alia* as set out below:
- i. The amalgamation would result in formation of a larger and stronger entity having greater capacity for conducting its operations more efficiently and competitively;
 - ii. the amalgamation would avoid operational inefficiency in the group by operating one listed entity and create synergies;

- iii. the amalgamation would result in larger free public float for the combined listed entity as pursuant to coming into effect of the Scheme, the resultant listed entity would be entirely held by the public shareholders;
- iv. the amalgamation would yield better administration and cost reduction, including reduction in administrative, legal and other costs associated with the Transferor Company;
- v. create value for stakeholders including respective shareholders, customers, and employees as the combined entity would benefit from operational efficiencies, optimal utilization of resources, improvement in productivity, cost-reduction etc.;
- vi. the Transferor Company currently carries on financial activity business in the nature of investments in bank deposits or other permissible securities and investment in shares of subsidiary and derives its value primarily from its investments in the Transferee Company, and therefore, pursuant to amalgamation the public shareholders of the Transferor Company would benefit by directly holding shares in the Transferee Company and derive value from the business of Transferee Company directly.

5. Relationship amongst the companies who are parties to the Scheme

a. The Transferor Company does not have any promoter and its entire paid-up share capital (comprising only of one class of equity shares) is held by non-promoters / public shareholders.

b. Upon coming into effect of this Scheme, in consideration of the amalgamation, the Transferee Company would issue and allot to the shareholders of the Transferor Company whose names are recorded in the register of members of the Transferor Company on the Record Date (*as defined in the Scheme*), 116 (One Hundred and Sixteen) equity shares of the face value of Rs. 10 (Rupees Ten) each of Transferee Company, to be credited as fully paid-up, for every 10 (Ten) equity shares of the face value of Rs. 10 (Rupees Ten) each fully paid-up held by such member in the Transferor Company ("**Share Exchange Ratio**")

2 RATIONALE OF THE SCHEME

- 2.1.1. As per the SFB Guidelines, the promoter of a small finance bank is required to reduce its equity shareholding stake in the small finance bank to 40% within a period of 5 years from the date of commencement of operations of small finance bank. Thereafter, the promoter’s equity stake in such small finance bank is required to be brought down to 30% and then to 26%, within a period of 10 years and 12 years, respectively, from the date of commencement of operations of the small finance bank. Subsequently, an internal working group (IWG) was constituted by the RBI on June 12, 2020 to review the extant guidelines on ownership and corporate structure for Indian private sector banks. The IWG submitted a report dated November 20, 2020 through which a few recommendations were made to the RBI which *inter alia* included dilution of promoter shareholding. The RBI vide its press release dated November 26, 2021 has *inter alia* accepted the dilution aspects of promoter shareholding in the private sector banks and clarified that the submission of a dilution schedule shall be mandatory.
- 2.1.2. As per the RBI Clarifications, a promoter can exit or cease to be a promoter of small finance bank after completing lock-in of 5 (five) years depending upon the RBI’s regulatory and supervisory comfort and SEBI regulations. The RBI vide its letter dated July 9, 2021 issued to the ‘Association of Small Finance Banks of India’, has allowed filing of an application with the RBI for amalgamation of a holding company (being promoter company) into and with the small finance bank (being subsidiary of promoter company).
- 2.1.3. The Transferor Company is the promoter of the Transferee Company, and the Transferor Company holds 73.68% (seventy-three point six eight percent) of the total paid-up equity share capital of the Transferee Company.
- 2.1.4. Accordingly, the proposed amalgamation of the Transferor Company (being the holding and promoter of the Transferee Company) into and with the Transferee Company, would *inter alia* enable meeting the dilution requirements referred in Clause 2.1.1. above, and is in line with the aforesaid enabling RBI guidance. Consequent to the proposed amalgamation as contemplated under this Scheme, and dissolution of the Transferor Company, the Transferor Company’s shareholding in the Transferee Company would be reduced to NIL thereby resulting in compliance with the above-referred dilution requirements.

2.1.5. The proposed amalgamation would be in the best interest of the Transferor Company and the Transferee Company and their respective shareholders, employees, creditors and other stakeholders as the proposed amalgamation will yield advantages as set out *inter alia* below:

- i. The amalgamation would result in formation of a larger and stronger entity having greater capacity for conducting its operations more efficiently and competitively;
- ii. the amalgamation would avoid operational inefficiency in the group by operating one listed entity and create synergies;
- iii. the amalgamation would result in larger free public float for the combined listed entity as pursuant to coming into effect of the Scheme, the resultant listed entity would be entirely held by the public shareholders;
- iv. better administration and cost reduction, including reduction in administrative, legal and other costs associated with the Transferor Company;
- v. create value for stakeholders including respective shareholders, customers, and employees as the combined entity would benefit from operational efficiencies, optimal utilization of resources, improvement in productivity, cost-reduction etc.;
- vi. the Transferor Company currently carries on financial activity business in the nature of investments in bank deposits or other permissible securities and investment in shares of subsidiary and derives its value primarily from its investments in the Transferee Company, and therefore, pursuant to amalgamation the public shareholders of the Transferor Company would benefit by directly holding shares in the Transferee Company and derive value from the business of Transferee Company directly.

 - (v) dissolution of the Transferor Company without winding up.
- 2.2. Upon coming into effect of this Scheme, in consideration of the amalgamation, and based on the Valuation Report and Fairness Opinion, the Transferee Company would issue and allot to the shareholders of the Transferor Company whose names are recorded in the register of members of the Transferor Company on the Record Date, 116 (One hundred and sixteen) equity shares of the face value of Rs. 10 (Rupees ten) each of Transferee Company, credited as fully paid-up, for every 10 (ten) equity shares of the face value of Rs. 10 (Rupees ten) each fully paid-up held by such member in the Transferor Company (“**Share Exchange Ratio**”).
- 2.3. The Fairness Opinion confirmed that the Share Exchange Ratio as mentioned in the Valuation Report is fair to the Transferor Company and its shareholders.
- 2.4. The Scheme is conditional and subject to the following:
- (i) the approval of the RBI in terms of RBI Master Directions – Amalgamation of Private Sector Banks, Directions, 2016 dated April 21, 2016 and RBI certification under Section 44(B)(1) of the Banking Regulation Act, 1949;
 - (ii) no-objection of BSE and the NSE and SEBI comments as per Regulation 37 and Regulation 94 of SEBI (Listing Obligation and Disclosure Requirements) Regulations, 2015 (“**SEBI LODR**”) read with SEBI Master Circular;
 - (iii) the Scheme being approved by the requisite majority of each classes of members and/or creditors (where applicable) of the Transferor Company and Transferee Company in accordance with the Applicable Laws (as defined in the Scheme) and as may be directed by the National Company Law Tribunal, Bengaluru Branch (“**NCLT**”). Further, the Scheme is conditional upon Scheme being approved by the public shareholders through e-voting in terms of Para (A)(10)(a) of Part-I of SEBI Master Circular 1 and the Scheme shall be acted upon only if vote cast by the public shareholders in favour of the proposal are more than the number of votes cast by the public shareholders against it in terms of Para (A)(10)(b) of Part-I of SEBI Master Circular;
 - (iv) the Scheme having been sanctioned by the NCLT;

 - (vi) receipt of such other sanction(s), approval(s) etc., of any other Governmental Authority as may be required by Applicable Laws (as defined in the Scheme) in respect of the Scheme; and

- 2.1. The Scheme is proposed to be effective from Appointed Date (as defined in the Scheme) and operative on the Effective Date (as defined in the Scheme).

3. Comment by the Committee of Independent Directors on the Scheme:

Need and rationale for amalgamation:

- 3.1. The Transferee Company is a small finance bank (SFB) and was issued a license in this regard by the RBI on November 11, 2016. As per the conditions laid in the said license read with RBI Guidelines for Licensing of 'Small Finance Banks' in the Private Sector dated November 27, 2014 and the RBI Guidelines for 'on-tap' Licensing of 'Small Finance Banks' in Private Sector dated December 5, 2019 ("SFB Guidelines"), the promoter of SFB was required to reduce its equity stake in SFB to 40%, then to 30%, and then to 26% within a period of 5 (five) years, 10 (ten) years and 12 (twelve) years respectively, from commencement of operations of SFB. Subsequently, certain recommendations including *inter alia* with respect to the dilution of promoter shareholding were made in a report dated November 20, 2020, by the Internal Working Group (IWG) which was constituted by the RBI to review the extant guidelines on ownership and corporate structure for Indian private sector banks. The RBI vide its press release dated November 26, 2021, has *inter alia* accepted IWG's recommendation with respect to dilution aspects of promoter shareholding in the private sector banks and clarified that the submission of a dilution schedule shall be mandatory.
- 3.2. Accordingly, the proposed amalgamation among other business objectives and benefits (as indicated in the Scheme) would enable the Transferee Company to ensure the aforesaid compliance. The Committee of Independent Directors noted that in proceeding with this approach, the Transferee Company and Transferor Company, have *inter alia*, resorted to:
- (i) the RBI clarification dated January 1, 2015 which provides that promoter can exist or cease to be a promoter after completing lock-in period of five years, subject to the RBI's regulatory and supervisory comfort and SEBI Regulations; and
 - (ii) RBI letter dated July 9, 2021 issued to the 'Association of Small Finance Banks of India', which allows reverse merger of holding company with the SFB subject to RBI approval.
- 3.3. The Committee of Independent Directors also took note of the advantages which the proposed amalgamation would yield, as elaborated in the Scheme, and is of the view that such benefits and the purpose of the amalgamation as referred above and in the Scheme, justifies the basis for the amalgamation.

Synergies of business:

- 3.4. The proposed amalgamation would result in formation of a larger, stronger, and single entity having greater capacity for conducting its operations more efficiently and competitively. It would enable better administration and cost reduction, including reduction in administrative, legal and other costs associated with the Transferor Company.

Impact of the Scheme on the shareholders:

- 3.5. The Transferor Company does not have its own operations and derives its value primarily from its investments in the Transferee Company, and therefore, pursuant to amalgamation the public shareholders of the Transferor Company would benefit by directly holding shares in the Transferee Company and derive value from the business of Transferee Company directly.
- 3.6. The Scheme will result in economies of scale, cost reduction and better administration, which will contribute to make the combined entity more profitable and accordingly further unlock and enhance the overall shareholders value, including for the shareholders of Transferor Company who would be directly holding equity shares in the Transferee Company, upon the Scheme coming into effect.

- 3.7. The amalgamation would result in larger free public float for the combined listed entity as pursuant to coming into effect of the Scheme, the resultant listed entity would be entirely held by the public shareholders.

Cost benefit analysis of the Scheme:

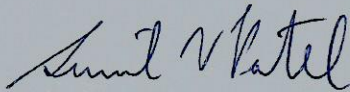

- 3.8. Keeping in view the rationale and purpose of the amalgamation as mentioned in the Scheme, the Committee of Independent Directors is of the view that the amalgamation would result in economies of scale, reduction in compliance and administrative costs, increase efficiencies, and better administration, thereby contributing to the future profitability of the combined entity and enhancement of shareholders value, including for the shareholders of Transferor Company who would be directly holding equity shares in the Transferee Company, upon the Scheme coming into effect.

4. Recommendation of Committee of Independent Directors:

The Committee of Independent Directors after due deliberations and considerations on, inter alia, the draft Scheme, the overall rationale and advantages of the Scheme, the Share Exchange Ratio, Valuation Report, Fairness Opinion, statutory auditors' certificate on accounting treatment, and the above-referred considerations, is of the view that the Scheme is not detrimental to the shareholders of the Transferor Company.

In light of the aforesaid, the Committee of Independent Directors recommends the draft Scheme for favorable consideration of the Board of Directors of the Transferor Company.

2.1. The Scheme is proposed to be effective from Appointed Date (as defined in the Scheme) and operative on the Effective Date (as defined in the Scheme).

3. Comment by the Audit Committee on the Scheme:

Need and rationale for amalgamation:

- 3.1. The Transferee Company is functioning a small finance bank (SFB) and was issued a license in this regard by the RBI on November 11, 2016. As per the conditions laid in the said license read with RBI Guidelines for Licensing of 'Small Finance Banks' in the Private Sector dated November 27, 2014 and the RBI Guidelines for 'on-tap' Licensing of 'Small Finance Banks' in Private Sector dated December 5, 2019 ("**SFB Guidelines**"), the promoter of SFB was required to reduce its equity stake in SFB to 40%, then to 30%, and then to 26% within a period of 5 (five) years, 10 (ten) years and 12 (twelve) years respectively, from commencement of operations of SFB. Subsequently, certain recommendations including *inter alia* with respect to the dilution of promoter shareholding were made in a report dated November 20, 2020, by the Internal Working Group (IWG) which was constituted by the RBI to review the extant guidelines on ownership and corporate structure for Indian private sector banks. The RBI vide its press release dated November 26, 2021, has *inter alia* accepted IWG's recommendation with respect to dilution aspects of promoter shareholding in the private sector banks and clarified that the submission of a dilution schedule shall be mandatory.
- 3.2. Accordingly, the proposed amalgamation among other business objectives and benefits (as indicated in the Scheme) would enable the Transferee Company to meet the aforesaid dilution requirements.

The Audit Committee noted that in proceeding with this approach, the Transferee Company and Transferor Company, have *inter alia*, resorted to:

- (i) the RBI clarification dated January 1, 2015 which provides that promoter can exist **or** cease to be a promoter after completing lock-in period of five years, subject to the RBI's regulatory and supervisory comfort and SEBI Regulations; and
 - (ii) RBI letter dated July 9, 2021 issued to the 'Association of Small Finance Banks of India', which allows reverse merger of holding company with the SFB subject to RBI approval.
- 3.3. The Audit Committee also took note of the advantages which the proposed amalgamation would yield, as elaborated in the Scheme, and is of the view that such benefits and the purpose of the amalgamation as referred above and, in the Scheme, is justifying the basis for the amalgamation.

Synergies of business:

- 3.4. The proposed amalgamation would result in formation of a larger, stronger and single entity having greater capacity for conducting its operations more efficiently and competitively. It would enable better administration and cost reduction, including reduction in administrative, legal and other costs associated with the Transferor Company.

Impact of the Scheme on the shareholders:

- 3.5. The Scheme would, *inter alia*, result in economies of scale, cost reduction and better administration, which will contribute to make Transferee Company more profitable, and thus, unlock and enhance the overall value for the shareholders of the Transferee Company.
- 3.6. The amalgamation would result in larger free public float for the combined listed entity as pursuant to coming into effect of the Scheme, the resultant listed entity would be entirely held by the public shareholders.

Cost benefit analysis of the Scheme:

4. Keeping in view the rationale and purpose of the Amalgamation as mentioned in the Scheme, the Audit Committee is of the view that the amalgamation would result in economies of scale, reduction in compliance and administrative costs, increase efficiencies, and better administration, thereby contribution to future profitability of the Transferee Company and enhancement of overall value for the respective shareholders of the Transferor Company and Transferee Company.

5. Recommendation of Audit Committee:

The Audit Committee after due deliberations and considerations on, inter alia, the draft Scheme, Share Exchange Ratio, Valuation Report, Fairness Opinion, statutory auditors' certificate on accounting treatment, and the above-referred considerations, recommends the draft Scheme for favorable consideration of the Board of Directors of the Transferee Company.

REPORT ADOPTED BY THE BOARD OF DIRECTORS OF UJJIVAN FINANCIAL SERVICES LIMITED BY WAY OF RESOLUTION PASSED AT THEIR MEETING HELD ON OCTOBER 14, 2022, EXPLAINING THE EFFECT OF THE SCHEME OF AMALGAMATION ON EQUITY SHAREHOLDERS, KEY MANAGERIAL PERSONNEL, PROMOTERS, AND NON-PROMOTER SHAREHOLDERS, AND EMPLOYEES

1. Background

- 1.1. This report is made and adopted in order to comply with the requirement of Section 232 (2) (c) of the Companies Act, 2013 (“Act”), in connection with proposed amalgamation of Ujjivan Financial Services India Limited (“**Transferor Company**” or “**Company**”) into and with Ujjivan Small Finance Bank Limited (“**Transferee Company**”).
- 1.2. In relation to the proposed amalgamation, a Scheme of Amalgamation (“**Scheme**”) under the provisions of Sections 230-232 and other applicable provisions of the Act, read with applicable provisions of the Companies (Compromises, Arrangements and Amalgamations) Rules, 2016 and the SEBI Master Circular No. SEBI/HO/CFD/DIL1/CIR/P/2021/665 dated November 23, 2021 was proposed. The said Scheme was placed for consideration of the Board of Directors at a meeting held on October 14, 2022 and was duly approved at such meeting, based on the recommendations received from the Audit Committee and Committee of Independent Directors.
- 1.3. The Transferee Company is functioning as a small finance bank (**SFB**) and was issued a license in this regard by the Reserve Bank of India (“**RBI**”) on November 11, 2016. As per the conditions laid in the said license read with RBI Guidelines for Licensing of ‘Small Finance Banks’ in the Private Sector dated November 27, 2014 and the RBI Guidelines for ‘on-tap’ Licensing of ‘Small Finance Banks’ in Private Sector dated December 5, 2019, the promoter of SFB was required to reduce its equity stake in SFB to 40%, then to 30%, and then to 26% within a period of 5 (five) years, 10 (ten) years and 12 (twelve) years respectively, from commencement of operations of SFB. Subsequently, certain recommendations including *inter alia* with respect to the dilution of promoter shareholding were made in a report dated November 20, 2020, by the Internal Working Group (IWG) which was constituted by the RBI to review the extant guidelines on ownership and corporate structure for Indian private sector banks. The RBI vide its press release dated November 26, 2021, has *inter alia* accepted IWG’s recommendation with respect to dilution aspects of promoter shareholding in the private sector banks and clarified that the submission of a dilution schedule shall be mandatory.
- 1.4. Accordingly, the proposed amalgamation among other business objectives and benefits (as indicated in the Scheme) would enable the Transferee Company to ensure the aforesaid compliance. In proceeding with this approach, the Transferee Company and Transferor Company, have *inter alia*, resorted to:
- the RBI clarification dated January 1, 2015, which provides that promoter can exist or cease to be a promoter after completing lock-in period of five years, subject to the RBI’s regulatory and supervisory comfort and Regulations of Securities and Exchange Board of India (“**SEBI**”); and
 - RBI letter dated July 9, 2021, issued to the ‘Association of Small Finance Banks of India’, which allows reverse merger of holding company with the SFB subject to RBI approval.
- 1.5. This report explains the effect of amalgamation on each class of shareholders, key managerial personnel (“**KMPs**”), promoters and non-promoter shareholders, and employees of the Transferor Company.

2. Effect of the Scheme on each class of shareholders (Promoter and Non-Promoter Shareholders) and KMPs of Transferor Company

2.1. Effect of the Scheme on Shareholders (Promoter and Non-Promoter Shareholders)

- The Transferor Company does not have any promoter and its entire paid-up share capital (comprising only of one class of equity shares) is held by non-promoters / public shareholders.

- (ii) Upon coming into effect of this Scheme, in consideration of the amalgamation, the Transferee Company would issue and allot to the shareholders of the Transferor Company whose names are recorded in the register of members of the Transferor Company on the Record Date (as defined in the Scheme), 116 (One hundred and Sixteen) equity shares of the face value of Rs. 10 (Rupees ten) each of Transferee Company, credited as fully paid-up, for every 10 (ten) equity shares of the face value of Rs. 10 (Rupees ten) each fully paid-up held by such member in the Transferor Company (“Share Exchange Ratio”).
- (iii) The Transferor Company does not have its own operations and derives its value predominantly from its investments in the Transferee Company, and therefore, pursuant to the Scheme coming into effect, the public shareholders of the Transferor Company would benefit by directly holding shares in the Transferee Company and derive value from the business of Transferee Company directly.
- (iv) Further, the Transferor Company is the promoter and holding company of the Transferee Company and holds 1,440,036,800 equity shares (representing 73.68% of the total paid-up equity share capital) of the Transferee Company. The remaining 514,467,881 equity shares (representing 26.32% of the total paid-up equity share capital) of the Transferee Company are held by the non-promoter / public shareholders.
- (v) Besides this, the Transferor Company holds 200,000,000 11% Preference Shares (Perpetual Non-Cumulative Non-Convertible) (representing 100% of the total paid-up preference share capital) of Transferee Company.
- (vi) Upon the Scheme becoming effective, the Transferor Company shall stand dissolved without being wound up. Consequently, upon the Scheme becoming effective, 1,440,036,800 equity shares held by the Transferor Company and 200,000,000 preference shares held by the Transferor Company in the Transferee Company shall stand cancelled and extinguished.
- (vii) Pursuant to cancellation of equity shares and preference shares held by the Transferor Company in the Transferee Company (as referred at s.no. 2.1. (vi) above) and issuance and allotment of fresh equity shares of Transferee Company to the shareholders of the Transferor Company (as referred at s.no. 2.1. (ii) above), 100% percent equity shareholding of the Transferee Company would be held by the public shareholders, with no person acting as ‘promoter’ in the Transferee Company.

2.2. Effect of the Scheme on Employees and KMPs:

- (i) Upon the Scheme becoming effective and with effect from the Appointed Date (as defined in the Scheme), all staff and employees of the Transferor Company who are in such employment as on the Effective Date (as defined in the Scheme) shall become, and be deemed to have become, the staff and employees of the Transferee Company, without any break or interruption in their services and on the same terms and conditions (and which are commercially not less favourable than those) on which they are engaged by the Transferor Company as on the Effective Date.
- (ii) Further, the Transferor Company has issued stock options to Eligible Employees (as defined under the Scheme) under Transferor Company Option Scheme (as defined in the Scheme). REPORT ADOPTED BY THE BOARD OF DIRECTORS OF UJJIVAN SMALL FINANCE BANK LIMITED BY WAY OF RESOLUTION PASSED AT THEIR MEETING HELD ON OCTOBER 14, 2022, EXPLAINING THE EFFECT OF SCHEME OF AMALGAMATION ON EACH CLASS OF SHAREHOLDERS, KEY MANAGERIAL PERSONNEL (KMPs), PROMOTERS AND NON-PROMOTER SHAREHOLDERS, AND EMPLOYEES

1. Background

- 1.1. This report is made and adopted in order to comply with the requirement of Section 232 (2) (c) of the Companies Act, 2013 (“Act”), in connection with proposed amalgamation of Ujjivan Financial Services India Limited (“Transferor Company”) into and with Ujjivan Small Finance Bank Limited (“Transferee Company” or “Bank”).
- 1.2. In relation to the proposed amalgamation, a Scheme of Amalgamation (“Scheme”) under the provisions of Sections 230-232 and other applicable provisions of the Act, read with applicable provisions of the Companies (Compromises, Arrangements and Amalgamations) Rules, 2016 and the SEBI Master Circular No. SEBI/HO/CFD/DIL1/CIR/P/2021/665 dated November 23, 2021 was proposed. The said Scheme was placed for consideration of the Board of Directors at a meeting held on October 14, 2022, and was duly approved at such meeting, based on the recommendations received from the Audit Committee and Independent Directors Committee.
- 1.3. The Transferee Company is functioning as a small finance bank (SFB) and was issued a license in this regard by the Reserve Bank of India (“RBI”) on November 11, 2016. As per the conditions laid in the said license read with RBI Guidelines for Licensing of ‘Small Finance Banks’ in the Private Sector dated November 27, 2014, and the RBI Guidelines for ‘on-tap’ Licensing of ‘Small Finance Banks’ in Private Sector dated December 5, 2019, the promoter of SFB was required to reduce its equity stake in SFB to 40%, then to 30%, and then to 26% within a period of 5 (five) years, 10 (ten) years and 12 (twelve) years respectively, from commencement of operations of SFB. Subsequently, certain recommendations including *inter alia* with respect to the dilution of promoter shareholding were made in a report dated November 20, 2020, by the Internal Working Group (IWG) which was constituted by the RBI to review the extant guidelines on ownership and corporate structure for Indian private sector banks. The RBI vide its press release dated November 26, 2021, has *inter alia* accepted IWG’s recommendation with respect to dilution aspects of promoter shareholding in the private sector banks and clarified that the submission of a dilution schedule shall be mandatory.
- 1.4. Accordingly, the proposed amalgamation among other business objectives and benefits (as indicated in the Scheme) would enable the Transferee Company to ensure the aforesaid compliance. In proceeding with this approach, the Transferee Company and Transferor Company, have *inter alia*, resorted to:
 - (i) the RBI clarification dated January 1, 2015, which provides that promoter can exist or cease to be a promoter after completing lock-in period of five years, subject to the RBI’s regulatory and supervisory comfort and Regulations of Securities and Exchange Board of India (“SEBI”); and
 - (j) RBI letter dated July 9, 2021, issued to the ‘Association of Small Finance Banks of India’, which allows reverse merger of holding company with the SFB subject to RBI approval.
- 1.5. This report explains the effect of amalgamation on each class of shareholders, key managerial personnel (“KMPs”), promoters and non-promoter shareholders, and employees of Transferee Company.

2. Effect of the Scheme on each class of shareholders, promoter and non-promoter shareholders, and KMPs of Transferee Company

2.1. Effect of the Scheme on Equity Shareholders (Promoter and Non-Promoter Shareholders)

- (i) The Transferor Company is the promoter and holding company of the Transferee Company and holds 1,440,036,800 equity shares (representing 73.68% of the total paid-up equity share capital) of the Transferee Company. The remaining 514,467,881 equity shares (representing 26.32% of the total paid-up equity share capital) of the Transferee Company is held by the non-promoter / public shareholders.
- (ii) Upon the Scheme becoming effective, the Transferor Company shall stand dissolved without being wound up. Consequently, upon the Scheme becoming effective, 1,440,036,800 equity shares held by the Transferor Company in the Transferee Company shall stand cancelled and extinguished.
- (iii) Further, upon coming into effect of this Scheme, in consideration of the amalgamation, the Transferee Company would issue and allot to the shareholders of the Transferor Company whose names are recorded in the register of members of the Transferor Company on the Record Date (as defined in the Scheme), 116 (One hundred and sixteen) equity shares of the face value of Rs. 10 (Rupees ten) each of Transferee Company, credited as fully paid-up, for every 10 (ten) equity shares of the face value of Rs. 10 (Rupees ten) each fully paid-up held by such member in the Transferor Company (“**Share Exchange Ratio**”).
- (iv) Pursuant to cancellation of equity shares held by the Transferor Company in the Transferee Company (as referred at s.no. 2.1. (ii) above) and issuance and allotment of fresh equity shares to the shareholders of the Transferor Company (as referred at s.no. 2.1. (iii) above), 100% per cent equity shareholding of the Transferee Company would be held by the public shareholders, with no person acting as ‘promoter’ in the Transferee Company. Accordingly, the Scheme, if implemented, would result in increase in shareholding of public shareholders of the Transferee Company from 26.32% (as on the date of this Report) to 100%.

2.2. Effect of the Scheme on Preference Shareholders (Promoter and Non-Promoter Shareholders)

- (i) The Transferor Company holds 200,000,000 11% Preference Shares (Perpetual Non-Cumulative Non-Convertible) (representing 100% of the total paid-up preference share capital) of Transferee Company.
- (ii) Upon the Scheme becoming effective, the Transferor Company shall stand dissolved without being wound up. Consequently, upon the Scheme becoming effective, 200,000,000 preference shares held by the Transferor Company in the Transferee Company shall stand cancelled and extinguished.

2.3. Effect of the Scheme on Employees and KMPs

- (i) Upon the Scheme becoming effective, the employees and KMPs of the Transferee Company shall continue their respective services with the Transferee Company on the same terms and conditions (and which are commercially not less favorable than those) on which they are engaged by the Transferee Company as on the Effective Date.

Dear Sirs

Sub:- Recommendation of fair share exchange ratio for the proposed amalgamation of Ujjivan Financial Services Limited into and with Ujjivan Small Finance Bank Limited

I refer to the engagement letter of 1 October 2022, for a recommendation of a fair equity share exchange ratio for the proposed amalgamation of Ujjivan Financial Services Limited (hereinafter referred to as "UFSL") into and with Ujjivan Small Finance Bank Limited (hereinafter referred to as "USFB") (hereinafter referred to as "Proposed Amalgamation").

1 Background Information

Ujjivan Financial Services Limited was incorporated under the erstwhile Companies Act, 1956 in December 2004 with the initial objective of providing a full range of financial services to the economically active poor in urban areas who were not adequately served by financial institutions. UFSL received in-principle approval from the Reserve Bank of India ("RBI") on 7 October 2015, to set up a Small Finance Bank ("SFB") and floated its wholly-owned subsidiary Ujjivan Small Finance Bank Limited. UFSL transferred its business undertaking comprising its lending and financing business to USFB through a slump sale transaction on 01 February 2017, and USFB commenced its operations as a small finance bank on the same date.

After the transfer of business, as mandated by the RBI, UFSL got itself registered (registration number 02.00287) as a Core Investment Company (NBFC-ND-SI-CIC). Its main objects are to carry on the business of making investments in a group company in the form of securities and providing guarantees, etc. UFSL is a listed entity, and its equity shares are listed at both BSE and NSE.

USFB promoted by UFSL was incorporated in July 2016 under the Companies Act, 2013. USFB commenced its Banking operations on 01 February 2017 and is a 'scheduled bank' included in the Second Schedule to the Reserve Bank of India Act, 1934, and its equity shares are listed at both BSE and NSE.

As part of the conditions laid down in the license referenced License No. MUM:123 dated 11 November 2016, issued by the RBI to USFB and the Guidelines for Licensing of 'Small Finance Banks' in the Private Sector dated November 27, 2014 read with the Guidelines for 'on-tap' Licensing of Small

Finance Banks in Private Sector dated December 5, 2019, the promoter of SFB was required to reduce its equity stake in SFB to 40%, then to 30%, and then to 26% within a period of 5 (five) years, 10 (ten) years and 12 (twelve) years respectively, from commencement of operations of SFB. Subsequently, certain recommendations including *inter alia* with respect to the dilution of promoter shareholding were made in a report dated November 20, 2020, by the Internal Working Group (IWG) which was constituted by the RBI to review the extant guidelines on ownership and corporate structure for Indian private sector banks. The RBI vide its press release dated November 26, 2021, has *inter alia* accepted IWG's recommendation with respect to dilution aspects of promoter shareholding in the private sector banks and clarified that the submission of a dilution schedule shall be mandatory.

The management of both companies are contemplating an amalgamation of UFSL with USFB on a downstream merger concept to *inter alia* meet the above-referred dilution requirements. The Board of Directors of UFSL (the Transferor Company) and USFB (the Transferee Company) have resolved that the amalgamation of the Transferor Company into and with the Transferee Company would be in the best interests of the Transferor Company, the Transferee Company and their respective shareholders, creditors, employees, and other stakeholders. A scheme of amalgamation has been finalised under sections 230-232 of the Companies Act, 2013 to form a single entity and to derive inter-alia, benefits of operational savings.

The 'Appointed Date' for the proposed amalgamation has been determined as April 1, 2023.

2 Scope and Purpose of this Valuation

The objective of this valuation is to recommend a fair exchange ratio for the Proposed Amalgamation. It is the UFSL management's decision to seek an advisory opinion to determine the share exchange ratio for the Proposed Amalgamation.

This valuation is done by CA. Prakash Adiga, a registered valuer, Bengaluru. Since this is a limited-scope valuation, no other experts were consulted in the process of valuation.

6 Valuation Approaches

Fair value is defined as the price that would be received on the sale of an asset or payment made for transferring a liability in an orderly transaction between market participants as on the valuation date. In the Proposed Amalgamation, UFSL is amalgamating into and with USFB and hence UFSL is the Transferor company and USFB is the Transferee company. My objective is to identify the number of USFB shares that can be issued against each equity share of UFSL to the holders based on the fair values of the equity shares of USFB and UFSL as on the valuation date.

There are three main valuation approaches:

- (a) Market approach.
- (b) Income approach; and
- (c) Asset-based approach.

Normally, these approaches may lead to different valuations and no single approach can be considered comprehensive and conclusive. The valuer uses his judgment in identifying one or more suitable approaches based on the facts of each case. It is customary to use values under more than one approach/method and the fair value is normally arrived at based on an average.

A market approach is a valuation approach that uses prices and other relevant information generated by market transactions involving identical or comparable (i.e., similar) assets, liabilities, or a group of assets and liabilities, such as a business. Under the Market approach, there are three methods viz., Market Price Method, Comparable Companies Multiple (CCM) Method, and Comparable Transaction Multiple (CTM) Method.

Registered Valuer (IBBI)

An income approach is a valuation approach that converts maintainable or future amounts (e.g., cash flows or income and expenses) to a single current (i.e., discounted, or capitalised) amount. This approach is preferred where the asset does not have any or fewer market comparable or comparable transactions. Under the Income Approach generally 'Discounted Free Cash Flow Method' or DCF Method is used.

An asset-based approach is a type of business valuation that focuses on a company's net asset value. An asset-based approach identifies a company's net assets by subtracting liabilities from assets. The asset-based valuation is often adjusted to calculate a company's net asset value based on the market value of its assets and liabilities.

7 Approaches and Methodology Adopted

Since the assets I am currently valuing are listed shares, market information is available and hence Income approach (DCF Method) has not been used in determining the value of both companies. Net Assets method is partially used in the case of UFSL. Shares of both UFSL and USFB are listed in the stock exchanges, Market Price Method (under Market Approach) is suitable and hence considered. Another Market Approach method viz., the CCM method is also used in the case of USFB only.

Under the Market Price method (considered for both companies), I have considered the traded price of the equity shares observed over a one-year period in the National Stock Exchange (NSE) where the trading volume of these shares was highest. Equity shares of both companies are traded on BSE and NSE. In the present case, the share price of both companies on the NSE has been considered, as the trading volumes are higher at NSE as compared to BSE. I have used the volume-weighted average price to reduce the impact of volatility at any point in time. The period immediately preceding one year is considered a reasonable period considering the market conditions. During the period before the one year, the markets were severely impacted due to the impact of the spread of the Covid-19 pandemic and such a period is an aberration for the purposes of valuation. Since the post-pandemic period was defined by a lot of uncertainties, a long duration of one year was considered appropriate under the circumstances.

Comparable Companies Multiple Method (considered for USFB), also known as Guideline Public Company Method, involves valuing an asset based on market multiples derived from prices of market comparable traded on the active market. For USFB, being in the small finance/ private sector banking, this method is suitable. The companies which have been compared belong to the same industry and are operating in the same geographic area with a similar line of business. A set of four companies having similar nature of business (small finance banks) have been considered and appropriate weights have been assigned after considering the size and composition of business activities.

The CCM methodology takes into account the comparable valuation of other similar financial services companies in the broader space while the market price methodology takes into account the trading history of the company for a reasonable period. Accordingly, I have assigned appropriate weights to the

two valuation methodologies, i.e., the CCM and the Market Price methodology to value USFB which is a listed entity.

In view of not using Income approach-based valuation methods, I have not relied upon any projected information for the purpose of this valuation. Since the DCF method has not been used, there is no assumptions or calculation for the capitalization factor and the weighted average cost of capital (WACC).

For the NAV method (considered only for UFSL), UFSL holds shares of USFB as investments and in calculating the asset-based value these investments are taken at the value used for calculating the swap ratio viz., an average of the market price of the share (NSE-vwap over one year) and the comparable company multiples. No adjustments were made to the published financial information for the purposes of the valuation other than the value of USFB shares held as investments which are based on the average market price as narrated above. There have been no adjustments made based on valuations made by third parties.

Summary of Valuation Approaches/Methods Used:

- **For UFSL: Adjusted Net Assets Value Method under the Asset Approach and Market Price Method under the Market Approach.**
- **For USFB: Market Price Method and Comparable Company Multiples Method under Market Approach.**

In the case of UFSL, I note that this is a non-operating investment company, and all its investments are in USFB. UFSL derives a substantial portion of its equity value through its holding in USFB. External liabilities are less than 0.1% of the total assets and USFB's shares constitute 93% of the total assets of UFSL at cost. Hence the most important input in the valuation of UFSL is the intrinsic value of UFSL's holding in USFB where it holds 73.68% of the outstanding equity capital. Accordingly, the Net Asset Valuation Methodology which captures the value of the underlying assets should be given a much higher weightage wherein the valuation of USFB is considered through a combination of CCM and Market Price as mentioned in the above paragraph. I also note that UFSL is listed and its trading price on BSE and NSE should be factored in as one of the methodologies for valuing UFSL. Given that UFSL has no independent operations of its own, a lower weightage is more appropriate for the market price methodology as the see-through valuation is more meaningfully captured through the NAV methodology.

The fair value is determined by arriving at an average price after assigning weights to values indicated by different approaches. The fair exchange ratio is determined based on the proportion of the fair value of equity shares of USFB to UFSL. The table under the 'Conclusion' paragraph explains the calculation of the Fair-exchange ratio of the equity shares of USFB and UFSL.

Prakash Adiga B FCA, DISA, RV(IBBI)

Registered Valuer (IBBI)

8 Basis of Fair Equity Share Swap Ratio

To arrive at a final valuation for the shares of each company, all the elements, and techniques discussed above must be taken into account before determining the basis of the fair equity share swap ratio for the proposed amalgamation. To make it easier to determine the fair equity share swap ratio, I took into account consistent weights and methodologies for the Companies. The fair equity share exchange ratio was calculated using a relative valuation that took into account the various approaches/methods previously described here, as well as various qualitative factors pertinent to each company, as well as the business dynamics and growth potential of the business while taking into account the main underlying assumptions and constraints of the valuation exercise.

I have determined that it is suitable to apply the proper weights to the results produced using each of the aforementioned methods.

The shares have been considered on a fully diluted basis by giving effect to the outstanding ESOPs which are in the money

In order to reach a consensus on the reasonable equity share swap ratio for the proposed amalgamation, the figures obtained have undergone the appropriate minor modification and rounding off.

9 Conclusion and Recommendation

Valuation Approach	Valuation Method	Ujjivan Small Finance Bank		Ujjivan Financial Services	
		Value Per Share (Rs.)	Weight	Value Per Share (Rs.)	Weight
Asset Approach	NAV Method ¹	NA	NA	314.51	80%
Income Approach	DCF Method ²	NA	NA	NA	NA
Market Approach	Market Price	20.60	80%	152.09	20%
	CCM Method ³	39.17	20%	NA	NA
Value Per Share		24.31		282.02	
Swap Ratio		1		11.60	

NA = Not Adopted/ Not Applicable

1. NAV Method under 'Asset Approach' has not been considered for Ujjivan Small Finance Bank since the net asset value does not reflect the intrinsic value of the business in a "going concern scenario"

Prakash Adiga B FCA, DISA, RV(IBBI)

Registered Valuer (IBBI)

2. Discounted Cash Flow Method under the 'Income Approach' has not been considered as both companies are listed on the Stock Exchanges and information related to future profit and loss account, balance sheet, and cash flows is price sensitive and not made available to us.
3. CCM Method under the 'Market Approach' has not been considered for UFSL as it has no independent operations of its own and hence the parameters necessary for comparison are unique.

Based on the methodology adopted, the Fair Value per share of UFSL is determined as Rs. 282.02 (Rupees two hundred eighty-two and two paise only) as against that of USFB's Fair Value which is determined as Rs. 24.31 (Rupees Twenty-four and thirty-one paise only)

In view of this, I recommend a fair exchange ratio (swap ratio) of 1 : 11.6 i.e., 116 USFB equity shares for 10 equity shares of UFSL in the event of amalgamation of UFSL with USFB.

10 Disclosure of valuer Interest/Conflict if any

I am not associated with UFSL or USFB or its associates in any capacity such as auditors etc., and there are no sources of conflict and materials interests involved. Neither the valuer nor the members of the team working on the independent valuation have directly or indirectly, through the client, or otherwise shared any advisory perspective or have been influenced or undertaken to advocate a management position in determining the value.

I. Engagement Background

We understand that the Board of Directors of Ujjivan Financial Services Limited (“UFSL” or “Company” or “Transferor Company”) is considering the amalgamation of the Company into and with Ujjivan Small Finance Bank Limited (“USFBL” or “Transferee Company”) and dissolution without winding up of the Transferor Company pursuant thereto, through a Scheme of Amalgamation (the “Scheme”), under applicable sections of the Companies Act, 2013, applicable SEBI Circulars and other Applicable Laws.

Part IV of the Scheme envisages the amalgamation of the Transferor Company into and with the Transferee Company, as set forth in the draft Scheme shared with us on 13th October 2022, the final version of which will be filed by the aforementioned companies with the appropriate authorities.

We understand that upon the Scheme coming into effect and in consideration of the amalgamation of the Transferor Company in the Transferee Company, the Transferee Company shall issue and allot to the shareholders of the Transferor Company 116 (One Hundred and Sixteen) equity shares of the face value of Rs. 10 (Rupees ten) each of Transferee Company, credited as fully paid-up, for every 10 (Ten) equity shares of the face value of Rs. 10 (Rupees ten) each fully paid-up held by the shareholders in the Transferor Company (“Share Exchange Ratio”).

We further understand that the Share Exchange Ratio for the proposed transaction has been arrived at based on the Valuation report dated 14th October, 2022 (“Valuation Report”) prepared by Prakash Adiga B – Registered Valuer having Reg. No. IBBI/RV/03/2019/11780 (the “Valuer”), who has been appointed for this exercise by UFSL.

In connection with the amalgamation of the UFSL into and with USFBL, you requested our Fairness Opinion (the “Opinion”) in terms of SEBI Master Circular SEBI/HO/CFD/DIL1/CIR/P/2021/000000665 dated November 23, 2021 as of the date hereof, as to the fairness of the Share Exchange Ratio, as proposed by the Valuer, from a financial point of view, to the equity shareholders of the Company.

II. Background of the Scheme

A brief history of each of the aforesaid companies is as under –

- **Ujjivan Financial Services Limited** was originally incorporated as a private limited company on December 28, 2004 under the provisions of the erstwhile Companies Act, 1956 with the name ‘Ujjivan Financial Services Private Limited’. Pursuant to a certificate issued by the RBI, on October 31, 2005, the Company was permitted to commence operations as an NBFC under section 45 IA of the Reserve Bank of India Act, 1934. On September 5, 2013, the Company was registered as NBFC-MFI by the RBI. On October 7, 2015, the Transferor Company was granted an in-principle approval by the RBI to set up a small finance bank under the SFB Guidelines. As required by the SFB Guidelines, the promoter of Small Finance Banks

should be owned and controlled by residents. The Transferor Company being a professionally managed company with diverse ownership and no identifiable 'promoter' or 'promoter group' in terms of the SEBI ICDR Regulations, could not directly convert its NBFC business into SFB in the absence of a resident promoter. Hence, the Transferor Company opted for 'Holding company structure' Further, since majority of the shareholders of the Company were foreign shareholders, the Company through its initial public offer in May 2016 brought the foreign shareholding to below 49% to qualify as a domestic promoter of the SFB to meet the RBI condition of a resident promoter. The Company through its said initial public offer, got its equity shares listed on the BSE and the NSE on May 10, 2016. Ujjivan Small Finance Bank was incorporated on July 4, 2016 as a wholly owned subsidiary of the Company.

As per the condition of the aforesaid license dated November 11, 2016, the promoting entity of small finance bank was required to be registered as a NBFC-CIC after transfer of its business to the small finance bank. Accordingly, to comply with the said condition, the Company was converted from a NBFC-MFI to NBFC-ND-SI-CIC and a fresh certification of registration dated October 10, 2017 was received from the RBI in this regard.

- **Ujjivan Small Finance Bank Limited** is a public limited company incorporated on July 4, 2016 under the provisions of the Act. The Transferee Company was issued a license bearing license no. MUM : 123 dated November 11, 2016 by the RBI to carry on the business of small finance bank in India. As per the condition stipulated in the said license, the Transferor Company transferred its business undertaking comprising of its lending business to the Transferee Company through a slump sale transaction on February 1, 2017 and the Transferee Company commenced its operations as a small finance bank on the same date. The Transferee Company was included in the list of scheduled banks under the second schedule of the Reserve Bank of India Act, 1934 pursuant to a notification dated July 3, 2017 issued by the RBI. The Transferee Company made an initial public offer, pursuant to which its equity shares got listed on the BSE and the NSE on December 12, 2019.

Part IV of the Scheme provides for:

Amalgamation of UFSL into and with USFBL

- Upon coming into effect of this Scheme and in consideration of the amalgamation of the Transferor Company in the Transferee Company, the Transferee Company shall, without any further application, act or deed, issue and allot to the shareholders of the Transferor Company whose names are recorded in the register of members as a member of the Transferor Company on the Record Date (or to such of their respective heirs, executors, administrators or other legal representatives or other successors in title as may be recognised by the Board of the Transferee Company), 116 (One Hundred and Sixteen) equity shares of the face value of Rs. 10 (Rupees ten) each of Transferee Company, credited as fully paid-up, for every 10 (Ten) equity shares of the face value of Rs. 10 (Rupees ten) each fully paid-up held by such member in the Transferor Company
- The new equity shares of the Transferee Company to be allotted and issued to the shareholders of the Transferor Company shall be subject to the provisions of the memorandum and articles of association of the Transferee Company and shall rank *pari passu* in all respects with the then existing equity shares of the Transferee Company after the Effective Date including in respect of dividend, if any, that may be declared by the Transferee Company on or after the scheme coming into effect
- The Appointed Date for the proposed Scheme shall be April 01, 2023, or such other date as may be approved by the NCLT

The rationale of the Scheme as shared with us by the Company's management is based on the following benefits:

- i. The amalgamation would result in formation of a larger and stronger entity having greater capacity for conducting its operations more efficiently and competitively;
- ii. the amalgamation would avoid operational inefficiency in the group by operating one listed entity and create synergies;
- iii. the amalgamation would result in larger free public float for the combined listed entity as pursuant to coming into effect of the Scheme, the resultant listed entity would be entirely held by the public shareholders;
- iv. better administration and cost reduction, including reduction in administrative, legal and other costs associated with the Transferor Company;
- v. create value for stakeholders including respective shareholders, customers, and employees as the combined entity would benefit from operational efficiencies, optimal utilization of resources, improvement in productivity, cost-reduction etc.;
- vi. the Transferor Company currently carries on financial activity business in the nature of investments in bank deposits or other permissible securities and investment in shares of subsidiary and derives its value primarily from its investments in the Transferee Company, and therefore, pursuant to amalgamation the public shareholders of the Transferor Company would benefit by directly holding shares in the Transferee Company and derive value from the business of Transferee Company directly.

- 6.1.1. Requested and received financial information;

- 6.1.8. For the purpose of arriving at the valuation of the companies, we have considered the valuation base as 'Fair Value', and the premise of value is 'Going Concern Value'. Any change in the valuation base or the premise could have a significant impact on our valuation exercise, and therefore, this Report.
- 6.2. The Client has informed us that IIFL Securities Limited has been appointed to provide a fairness opinion on the recommended Fair Equity Share Exchange Ratio for the purpose of the aforementioned Scheme of Amalgamation. Further, at the request of the Client, we had discussions with the Fairness Opinion provider on the valuation approach adopted and assumptions made by us.
- 6.3. We understand that UFSL has appointed CA Prakash Adiga B (Hereinafter referred to as "the other Valuer") for determining the share exchange ratio.
- 6.4. As stated earlier, our scope is to undertake a relative (and not absolute) valuation of the equity shares of the Companies and recommend Fair Share Exchange Ratio for the Amalgamation as per the Proposed Scheme. We have also been instructed by the Client to discuss the valuation approach with the Other Valuer and arrive at a consensus on the Fair Share Exchange ratio.
- 6.5. Whilst We have independently carried out the valuation of the Companies for recommending the Fair Share Exchange ratio, appropriate averaging and rounding off in values have been carried out to arrive at a consensus on the Fair Share Exchange ratio.

7. Valuation Approaches

- 7.1. It is pertinent to note that the valuation of any company or its assets is inherently imprecise and is subject to certain uncertainties and contingencies, all of which are difficult to predict and are beyond our control. In performing our analysis, we made numerous assumptions with respect to the industry performance and general business and economic conditions, many of which are beyond the control of the companies. In addition, this valuation will fluctuate with changes in prevailing market conditions and prospects, financial and otherwise, of the companies, its businesses and assets.
- 7.2. The application of any particular method of valuation depends on the purpose for which the valuation is done. Although different values may exist for different purposes, it cannot be too strongly emphasized that a valuer can only arrive at one value for one purpose. Our choice of the methodology of valuation has been arrived at using usual and conventional methodologies

adopted for transactions of a similar nature and our reasonable judgement, and analysis of businesses, in an independent and bona fide manner based on our previous experience of assignments of a similar nature.

- 7.3. It may be noted that JBPR Val he's enrolled with ICMAI RVO, which has recommended to follow International Valuation Standards ('IVS') for undertaking valuation and accordingly, we have considered the International Valuation Standards assured by the International Valuation Standards Council ('IVSC') in carrying out the valuation exercise.
- 7.4. The report date is the valuation date ('Valuation Date'). For the valuation exercise, market parameters have been considered up to and including October 13, 2022.
- 7.5. There are three generally accepted approaches to valuation:
 - 7.5.1. "Asset"/" Cost" Approach
 - 7.5.2. "Income" Approach
 - 7.5.3. "Market" Approach

Within these three basic approaches, several methods may be used to estimate the value. An overview of these approaches is as follows:

Asset/Cost Approach

Summation Method / Net Asset Value Method

The summation method, also referred to as the underlying asset method or NAV Method, is typically used for investment companies or other types of assets or entities for which value is primarily a factor of the values of their holdings.

This valuation approach is mainly used in cases where the asset base dominates earnings capability.

Income Approach

The Income Approach is widely used for valuation under the 'Going Concern' basis. It focuses on the income generated by the company in the past as well as its future earning capability. The Discounted Cash Flow Method under the Income Approach seeks to arrive at a valuation based on the strength of future cash flows.

Discounted Cash Flow Method

Under the Discounted Cash Flow ('DCF') method, the value of the undertaking is based on expected cash flows for the future, discounted at a rate, which reflects the expected returns and the risks associated with the cash flows as against its accounting profits. The value of the undertaking is determined as the present value of its future free cash flows.

Free cash flows are discounted for the explicit forecast period and perpetuity value thereafter. Free cash flows represent the cash available for distribution to both the owners and creditors of the business.

The discount rate is the Weighted Average Cost of Capital ("WACC"), based on an optimal vis-à-vis actual capital structure. It is an appropriate rate of discount to calculate the present value of future cash flows as it considers equity-debt risk and also the debt-equity ratio of the firm.

The perpetuity (terminal) value is calculated based on the business's potential for future growth beyond the explicit forecast period. The constant growth model is applied, which implies an expected constant level of growth (for perpetuity) in the cash flows over the last year of the forecast period.

The discounting factor (rate of discounting the future cash flows) reflects not only the time value of money but also the risk associated with the business's future operations.

The Business/Enterprise value so derived is further reduced by the value of debt, if any (net of cash and cash equivalents) to arrive at the value to the owners of the business. The surplus assets / non-operating assets are also adjusted.

In the case of free cash flow to equity, the cash available for distribution to owners of the business is discounted at the Cost of Equity and the value so arrived is the Equity Value before surplus/non-operating assets. The surplus assets/non-operating assets are further added to arrive at the Equity Value.

Market Approach

Under the Market Approach, the valuation is based on the market value of the company in the case of listed companies and comparable companies trading all transaction multiples for unlisted companies. The Market Approach generally reflects the investors' perception about the true worth of the company.

i. Market Price Method

Under this method, the market price of equity shares of the company as quoted on a recognized Stock Exchange is normally considered as the fair value of the equity shares of that company where such quotations are arising from the trading. The market value reflects the investors' perception about the true worth of the company.

ii. Comparable Companies Multiple method

Under the Comparable Companies Multiple ('CCM') method, the value is determined on the basis of multiples derived from the valuations of comparable companies, as manifest through stock market valuations of listed companies. This valuation is based on the principle that market valuations taking place between informed buyers and informed sellers incorporate all factors relevant to valuation. Relevant multiples need to be chosen carefully and adjusted for differences between the circumstances.

To the value of the business so arrived, adjustments need to be made for the value of contingent assets/liabilities, surplus assets and dues payable to preference shareholders, if any, in order to arrive at the value for equity shareholders.

iii. Comparable Transactions Multiple method

Under the Comparable Transactions Multiple ('CTM') method, the value of a company can be estimated by analyzing the prices paid by purchasers of similar companies under similar circumstances. This is an evaluation method where one will be comparing recent market transactions in order to gauge the current valuation of the target company. Relevant multiples have to be chosen carefully and adjusted for differences between the circumstances. This valuation approach is based on the principle that market valuations, taking place between informed buyers and informed sellers, incorporate all factors relevant to valuation.

8. Conclusion on Valuation Approach

8.1. In order to consider reasonable methods for the valuation exercise, we have referred to the international valuation standards and the specific information/explanations available of USFB and UFSL. We have considered the following respective methods for the valuation:

USFB

8.2. In the present case, the equity shares of USFB are listed on BSE and NSE, and there are regular transactions in their equity shares with reasonable volumes on NSE. Hence Market Price Method under the Market Approach has been considered for the valuation of USFB. The volume-weighted average share price observed on NSE for USFB over the last 90 trading days (from 6th June 2022 till 13th October 2022) has been considered as one of the methods for determining value under the market price methodology.

Comparable Companies Multiple ('CCM') method has also been used for determining and arriving at the fair value of USFB since there are comparable companies operating in a similar segment in India. We have selected comparable companies and assigned weights to each of the comparable companies based on the nature of the portfolio, loan book size, growth, profitability etc., in comparison with USFB to arrive at the weighted average of the multiples.

Further, due to the paucity of comparable transactions, the CTM method has not been considered.

In a going concern scenario and for an operating entity, the earning power, as reflected under the income and market approaches, is of greater importance to the basis of the merger than the values arrived at on the net asset basis being of limited relevance. Therefore, we have not considered the Asset/Cost approach for valuation since the Asset/Cost approach does not reflect the intrinsic value of the business operations in a 'going concern' scenario. However, while undertaking valuation using the CCM method, the net worth of USFB is already taken into consideration.

For the purpose of valuing USFB, we have used both the CCM and the Market price methodology with equal weightage as this is an operating company. The CCM methodology takes into account the comparable valuation of other similar financial services companies in the broader space, while the market price methodology takes into account the trading history of the company for a reasonable period of time.

Further, discounted cash flow method under the income approach has not been considered as USFB is a listed entity, and the management has not provided us with the information related to future profit and loss account, balance sheet and cashflows being price sensitive.

UFSL

- 8.3. In the present case, the shares of UFSL are listed on BSE and NSE, and there are regular transactions in their equity shares with reasonable volumes on both Stock Exchanges. Hence, the Market Price method under the Market Approach has been considered as one of the methods for the valuation of UFSL. The volume Weighted average share price observed on NSE for UFSL over the last 90 trading days (from 6th June 2022 till 13th October 2022) has been considered for determining value under the market price methodology.

CCM and CTM methods are not considered since the value is derived from its asset base rather than its earning potential and comparable companies and transactions with similar characteristics are not available.

Further, UFSL is a holding company and its value is derived from the underlying assets, i.e., investments in UFSL subsidiaries. Accordingly, we have used the Summation method/ NAV method under the Asset/Cost approach for the valuation of UFSL, wherein the fair value of UFSL subsidiaries has been considered to arrive at the fair value of UFSL under the summation method.

UFSL is a pure Holding company. UFSL derives a substantial portion of its equity value through its holding in USFB. External liabilities are less than 0.1% of the total assets, and USFB's shares constitute ~93% of the total assets of UFSL at cost. Hence the most important input in the valuation of UFSL is the intrinsic value of UFSL's holding in USFB, where it holds 73.68% of the outstanding capital. Accordingly, the Net Asset Valuation Methodology has been given a higher weightage wherein the valuation of USFB is considered through a combination of CCM and Market Price as mentioned in Paragraph 8.2 above.

Further, Discounted Cash Flow method under the income approach has not been considered as UFSL does not have any business operations and its value is derived from the investments in its subsidiaries.

Summary of the valuation approach considered:

Name of the Company	Methods Adopted
USFB	Market Price Method CCM method
UFSL	Market Price Method Summation Method / NAV Method

9. Basis of Fair Equity Share Exchange Ratio

- 9.1. The basis of the fair equity share exchange ratio for the Proposed Scheme would have to be determined after taking into consideration all the factors and methods mentioned hereinabove and to arrive at a final value for the shares of each company. It is, however, important to note that in doing so, we are not attempting to arrive at the absolute values of the Companies but at their relative values to facilitate the determination of the Fair Equity Share Exchange ratio.
- 9.2. We have independently applied the methods discussed above, as considered appropriate, and arrived at their assessment of value per share of the companies. To arrive at the consensus on the fair equity share exchange ratio for the proposed Scheme, rounding off has been done in the values.
- 9.3. The fair equity share exchange ratio has been arrived at on the basis of a relative valuation based on the various approaches/methods explained herein earlier and various qualitative factors relevant to each company and the business dynamics and growth potential of the business, having regard to information base key underlying assumptions and limitations. For this purpose, we have assigned appropriate weights to the values arrived at under each approach/method.
- 9.4. The equity shares have been considered on a fully diluted basis by giving effect to the outstanding ESOPs which are in the money.

10. Major factors that were considered during the valuation

- 10.1. The equity shares of both Companies are listed on the Stock Exchanges;
- 10.2. Key operating/financial parameters of USFB;
- 10.3. Nature of operation of UFSL and its underlying investments;
- 10.4. ESOPs granted by Companies which have an Exercise Price below the current market price
- 10.5. Discussions with the management of the companies.
- 10.6. Non-Convertible Preference Shares of USFB held by UFSL will be extinguished post the merger.

11. Conclusion

- 11.1. In the ultimate analysis, allocation will have to involve the exercise of judicious discretion and judgment, taking into account all the relevant factors. There will always be several factors, e.g. present and prospective competition, the yield on comparable securities and market sentiments etc., which are not evident from the face of the balance sheets, but which will strongly influence the worth of a share.
- 11.2. As discussed earlier, we have used the market price method and Comparable Companies Multiple method for the valuation of USFB and the Market Price method and Summation method / NAV method for the valuation of UFSL and arrived at the recommended fair equity share exchange ratio for Amalgamation of UFSL with USFB as follows:

Valuation Approach	Valuation Method	UFSL		USFB	
		Value per share (INR)	Weights	Value per share (INR)	Weights
Asset Approach ⁱ	Summation Method / NAV Method	258.29	0.55	NA	NA
Market Approach ⁱⁱ	MP method	188.70	0.45	21.95	0.5
Market Approach ⁱⁱⁱ	CCM method	NA	NA	17.17	0.5
Income Approach	DCF method	NA	NA	NA	NA
Relative Value per share		226.97		19.56	
Share Exchange Ratio (Rounded off)		10		116	

11.3. To arrive at the consensus on the fair equity swap exchange ratio for the proposed amalgamation, suitable minor adjustments / rounding off has been done.

11.4. Following is the recommended fair equity share exchange ratio for Amalgamation:

116 equity shares of Ujjivan Small Finance Bank Limited (of INR 10/- each fully paid up) for every 10 equity shares held in Ujjivan Financial Services (of INR 10/- each fully paid up).

ⁱ Summation method under Cost Approach has been considered for UFSL since it is a holding company and its value is derived from the underlying assets. The same is not considered for USFB since its value is derived from the future earnings potential. Since the underlying predominantly includes shares of listed subsidiary company, we have used both Market Price method and CCM method to value the underlying asset and assigned appropriate weights to the values derived from both the methods. Other assets and liabilities are considered at book value.

ⁱⁱ UFSL and USFB are listed on BSE and NSE. Hence, we have considered market price method for valuing both companies.

ⁱⁱⁱ We have used CCM method for valuation of USFB based on comparable companies operating in similar business segment. CTM method is not used for valuation of USFB due to paucity of Comparable transactions in private space. CCM and CTM method is not considered for UFSL since the value is derived from its asset base rather than its earning potential.

Dear Members of the Board:

I. ENGAGEMENT

We understand that the Board of Directors of Ujjivan Small Finance Bank Limited (“USFB”) is considering a restructuring of its shareholding through a Scheme of Arrangement (“**Scheme**”) under Section 230 to 232 and other applicable provisions of the Companies Act, 2013. Under the Scheme, the whole of the Undertakings of Ujjivan Financial Services Limited (“UFSL” or the “Transferor Company”) comprising their entire business, all assets and liabilities of whatsoever nature shall be transferred to and vested in and/ or be deemed to be transferred to and vested in USFB (the “Transferee Company”) as a going concern. USFB shall be issuing equity shares to shareholders of UFSL. The equity shares of both USFB and UFSL are already listed on the BSE Limited and the National Stock Exchange of India Limited.

The terms and conditions of the proposed issuance of shares by USFB are more fully set out in draft scheme document shared with us (“**Draft Scheme Document**”), the final version of which will be filed by the aforementioned companies with the appropriate authorities.

We understand that the share exchange ratio for shares of USFB to the shareholders of UFSL have been arrived at basis the financial results of UFSL and USFB as on 31 March 2021. We further understand that valuation of both USFB and UFSL have been detailed in the valuation report dated October 14, 2022 prepared by JBPR Valuation Advisors LLP (the “**Valuer**”), who have been appointed for this exercise by USFB.

In connection with the aforesaid vide engagement letter dated October 13, 2022, we are submitting our opinion (“**Opinion**”), as to the fairness of the share exchange ratio as detailed in the Draft Scheme Document and valuation report and the valuation of USFB and UFSL as proposed by the Valuer, from a financial point of view. We have not undertaken a valuation of the businesses of USFB and UFSL. Further, we have not independently checked or verified the assumptions made by the Valuer. Based on our perusal of the valuation report dated October 14, 2022 and the Draft Scheme Document, including any assumptions and caveats mentioned therein, we understand that 116 shares of USFB of Rs. 10 each will be issued to the shareholders of UFSL for every 10 shares of UFSL of Rs. 10 each held by the shareholders of UFSL.

The rationale for the Scheme as shared with us by the USFB management is based inter-alia on the following benefits:

1. formation of a larger and stronger entity having greater capacity for conducting its operations more efficiently and competitively
2. avoid operational inefficiency in the group by operating one listed entity and create synergies
3. larger free public float for the combined listed entity as pursuant to coming into effect of the Scheme, the resultant entity would be entirely held by the public shareholders
4. create value for stakeholders including respective shareholders, customers, and employees as the combined entity would benefit from operational efficiencies, optimal utilization of resources, improvement in productivity, cost-reduction etc.
5. better administration and cost reduction, including reduction in administrative, legal and other costs
6. pursuant to amalgamation the public shareholders of UFSL would benefit by directly holding shares in the USFB and derive value from the business of USFB directly

INDEPENDENT AUDITORS REPORT

To the Board of Directors of Ujjivan Financial Services Limited

Report on the audit of the Standalone Financial Results

Opinion

We have audited the accompanying standalone financial results of Ujjivan Financial Services Limited (hereinafter referred to as the “Company”) for the quarter and year ended 31 March 2023, attached herewith, being submitted by the Company pursuant to the requirement of Regulation 33 of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended (“Listing Regulations”).

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial results:

- a. are presented in accordance with the requirements of Regulation 33 of the Listing Regulations in this regard; and
- b. give a true and fair view in conformity with the recognition and measurement principles laid down in the applicable Indian Accounting Standards, and other accounting principles generally accepted in India, of the net profit and other comprehensive income and other financial information for the quarter and year ended 31 March 2023.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (“SAs”) specified under section 143(10) of the Companies Act, 2013 (“the Act”). Our responsibilities under those SAs are further described in the Auditor’s Responsibilities for the Audit of the Standalone Financial Results section of our report. We are independent of the Company, in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act, and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence obtained by us, is sufficient and appropriate to provide a basis for our opinion on the standalone financial results.

Management's and Board of Directors' Responsibilities for the Standalone Financial Results

These standalone financial results have been prepared on the basis of the standalone financial statements. The Company's Management and the Board of Directors are responsible for the preparation and presentation of these standalone financial results that give a true and fair view of the net profit/loss and other comprehensive income and other financial information in accordance with the recognition and measurement principles laid down in Indian Accounting Standards prescribed under Section 133 of the Act and other accounting principles generally accepted in India and in compliance with Regulation 33 of the Listing Regulations. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial results that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial results, the Management and the Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Results

Our objectives are to obtain reasonable assurance about whether the standalone financial results as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial results.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial results, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3) (i) of the Act, we are also responsible for expressing our opinion through a separate report on the complete set of financial statements on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures in the standalone financial results made by the Management and Board of Directors.
- Conclude on the appropriateness of the Management and Board of Directors use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the appropriateness of this assumption. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial results or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial results, including the disclosures, and whether the standalone financial results represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Other Matter

- (a.) The Standalone Financial Results include the results for the quarter ended 31 March 2023 being the balancing figure between the audited figures in respect of the full financial year and the published unaudited year to date figures up to the third quarter of the current financial year, which were subject to limited review by us.

Our opinion is not modified in respect of the above matter.

In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of report of other auditors on separate audited financial statements of the subsidiary referred to in "Other Matters" section below, the aforesaid consolidated financial results:

a. include the financial results of the following entity:

Sl. No.	Name of the component	Relationship
1.	Ujjivan Small Finance Bank	Subsidiary

b. are presented in accordance with the requirements of Regulation 33 of the Listing Regulations in this regard; and

c. give a true and fair view in conformity with the recognition and measurement principles laid down in the applicable Indian Accounting Standards, and other accounting principles generally accepted in India, of consolidated net profit and other comprehensive income and other financial information of the group for the quarter and year ended 31 March 2023.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing ("SAs") specified under section 143(10) of the Companies Act, 2013 ("the Act"). Our responsibilities under those SAs are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Results section of our report. We are independent of the Group, in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act, and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence obtained by us, along with the consideration of report of the other auditors referred to in sub paragraph no. (a) of the "Other Matters" paragraph below, is sufficient and appropriate to provide a basis for our opinion on the consolidated financial results.

Management's and Board of Directors' Responsibilities for the Consolidated Financial Results

These consolidated financial results have been prepared on the basis of the consolidated financial statements.

The Holding Company's Management and the Board of Directors are responsible for the preparation and presentation of these consolidated financial results that give a true and fair view of the net profit/ loss and other comprehensive income and other financial information of the group in accordance with the recognition and measurement principles laid down in Indian Accounting Standards prescribed under Section 133 of the Act and other accounting principles generally accepted in India and in compliance with Regulation 33 of the Listing Regulations. The respective Management and Board of Directors of the entities included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the each entity and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial results that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of consolidated financial results by the Management and the Board of Directors of the Holding Company, as aforesaid.

In preparing the consolidated financial results, the respective Management and the Board of Directors of the entities included in the Group are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the respective Board of Directors either intends to liquidate the entity or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the entities included in the Group is responsible for overseeing the financial reporting process of each entity.

Auditor's Responsibilities for the Audit of the Consolidated Financial Results

Our objectives are to obtain reasonable assurance about whether the consolidated financial results as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial results.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial results, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3) (i) of the Act, we are also responsible for expressing our opinion through a separate report on the complete set of financial statements on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures in the consolidated financial results made by the Management and Board of Directors.
- Conclude on the appropriateness of the Management and Board of Directors use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the appropriateness of this assumption. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor’s report to the related disclosures in the consolidated financial results or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor’s report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial results, including the disclosures, and whether the consolidated financial results represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial results of the entities within the Group to express an opinion on the consolidated financial results. We are responsible for the direction, supervision and performance of the audit of financial results of such entities included in the consolidated financial results of which we are the independent auditors. For the other entity included in the consolidated financial results, which has been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audit carried out by them. We remain solely responsible for our audit opinion. Our responsibilities in this regard are further described in sub paragraph no. (a) of the “Other Matters” paragraph in this audit report

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

We also performed procedures in accordance with the circular No CIR/CFD/CMD1/44/2019 issued by the Securities and Exchange Board of India under Regulation 33(8) of the Listing Regulations, as amended, to the extent applicable.

The independent auditor's report on these special purpose financial statements of this entity have been furnished to us by the management.

Our opinion on the consolidated financial results, in so far as it relates to the amounts and disclosures included in respect of this entity, is based solely on the reports of such auditors and the procedures performed by us are as stated in paragraph above.
